EDUCATION

Cornell University

B.S. Information Science; Minor Community Food Systems

Ithaca, NY

2019 – 2023

- Graduated magna cum laude; Dean's List all semesters
- Relevant coursework: Interactive Information Visualization, Learning Analytics, Text Mining for History and Literature

WORK EXPERIENCE

The Cigna Group

Data Scientist | Technology Development Program

New York, NY

July 2023 – Present

- Develop custom statistical thresholding logic with Python to predict and monitor call center infrastructure. Scaled to 30+ metrics across all lines of business.
- Collaborate to build "glanceable" Grafana dashboards for HQ wall viewed by senior leadership.
- Document thresholding logic and dashboard descriptions for future knowledge transfer and process improvement.
- TECDP work: Manage Summer Innovations Project communications for 55+ TECDP summer interns and 25 Cigna mentors. Send team information and project timeline to all interns and ensure their questions are answered.

Leak Research Group

Lead Undergraduate Research Assistant

Ithaca, NY / New York, NY

Feb 2020 – May 2023

- Analyzed qualitative and quantitative data from nutrition education study to recommend curriculum changes; new iteration supported by \$990,000 USDA grant used in NYC public schools in 2024.
- Collaborated with PI and relevant stakeholders to choose relevant validated pre- and post-survey instruments to target key research objectives.
- Led weekly team meetings for team of 15; communicated between PI, study host organizations, and team members to ensure project goals were met on time.

Rethink Food

Government Strategy Intern

New York, NY

June 2020 – Feb 2021

- Coordinated partnership with RETI Center to provide COVID-safe programming and 200 free meals/week.
- Ideated with policy directors to propose restaurant-grocery store hybrid model to accept Supplemental Nutrition Assistance Program benefits; presented to C-Suite.
